WHY SUPPORT

100% of the families that we support live within our community. 100% of our families are deemed in some form of financial hardship (short or long term).

Your support of our fundraising goals will allow us to directly impact families in our immediate community by:

- Increasing the number of families supported by our Christmas Wish Program throughout the year.
- Increasing the number of individuals supported by our Holiday Organized Pajama Events throughout the year.
- Increasing the number of scholarships awarded by our Educational Program, including additional investments into Science, Technology, Engineering and Math (STEM) Programs.

With health concerns looming regarding the COVID-19 pandemic, the LaBranche Family Foundation along with our Vendors are working tirelessly to make decisions and move forward with options that ensure our Guests and Team are safe and that you still have another totally unforgettable experience! This year each person attending the Gala are requested to present either proof of Full Vaccination Status or proof of a Negative COVID Test Result performed 1-3 days before the event. We intend to follow state and local guidelines as our date approaches. We reserve the right to limit access or shift to a virtual platform if required/mandated.
